Ceramic Chemicals Dept.

exp5@gzchem.com

Titanium Dioxide	CAS No.	13463-67-7
Ceramic Glaze Grade	Molecular Formula	TiO ₂
GC-A101	HS code	28230000

Product Specification	Item	Index
	Appearance	White powder
	TiO ₂ content	98 % Min
	Colour(To sample)	Not Lower
	Tinting strength	100 Min
	Volatile matter at 105°C	0.5 % Max
	Matter soluble in water	0.6 % Max
	PH of aqueous suspension	6.5 – 8.0
	Oil absorption g/100g	25 Max
	Residue on 45µm sieve	0.1% Max

Applications

GC-A101 enhances the whiteness and translucency of the glaze, improves coating properties, increases the glaze's resistance to wear and scratches, enhances its chemical resistance, and creates visually appealing and durable ceramic surfaces.

Package

- ▲ 25kg PP bag,22mt/20'fcl without pallet,20mt/20'fcl with pallet
- ▲ 1000kg big bag,20mt/20'fcl with pallet or without pallet
