## Cadmium Oxide

### Basic

CAS No. 1306-19-0

### Information

Molecular Formula CdO

HS code 3206499000

### Product

### Specification

Item	Index
Appearance	Brown crystals or powder
CdO	98.5% Min
Insoluble in HCl	0.04% max
Pb (Lead)	20 ppm max
Cu (Copper)	50 ppm max
Zn (Zinc)	50 ppm max
Fe (Iron)	20 ppm max
S (Sulfur)	50 ppm max
Particle Size	Min 100 mesh

### Application

Used in paint, glass, enamel and pottery glazes to increase color brightness and stability. Cadmium oxide can be used for ceramic glaze decoration to improve the appearance quality of ceramic products.
